Frontend: React.js, Tailwind CSS, Material-UI, Responsive Design, UI/UX Optimization
Backend: Node.js, Express.js, RESTful APIs, API Development, Postman
Databases: MongoDB, Google Sheets Integration, Cloud Databases
Tools & Platforms: Git, GitHub, Vercel, Zoho Creator, AI-Assisted Development, Agile/Scrum
Concepts: Full-Stack Development, Scalable Architecture, Performance Optimization, Workflow Automation

PROFESSIONAL EXPERIENCE

- | | |
|---|---|
| Software Engineer
<i>DevQAExpert Solution Private Limited</i> | September 2025 – Present
<i>Indore, India</i> |
| <ul style="list-style-type: none">Delivered 20+ production-level enhancements across UI, backend APIs, and business logic using React, Node.js, and MongoDB in an agile environment with daily scrumsDeveloped reusable React components and optimized component architecture, reducing development time by 30% and improving code maintainabilityResolved critical live-environment bugs, data inconsistencies, and API integration issues, ensuring 99% uptime and smooth user experienceLeveraged AI tools to accelerate development workflows, improve debugging efficiency, and enhance documentation qualityCollaborated with cross-functional teams on feature planning, code reviews, and deployment cycles using Git version control | |
| Zoho Creator Developer Intern
<i>Varthak Technologies (Zoho)</i> | February 2025 – March 2025
<i>Bengaluru, India</i> |
| <ul style="list-style-type: none">Built custom cloud-based business applications using Zoho Creator and Deluge scripting, eliminating installation and maintenance overheadDesigned automated workflows, interactive dashboards, and data-driven forms to streamline business operationsOptimized application UI/UX for improved usability and reduced task completion time by 40%Delivered real-time operational visibility through dashboards, enabling faster decision-making for stakeholders | |

PROJECTS

- | | |
|---|------------------------|
| SunandSonsFood – Client-Based Business Website
<i>React.js, Tailwind CSS, Google Apps Script, Google Sheets API, SweetAlert2</i> | November 2025 |
| <ul style="list-style-type: none">Delivered zero-maintenance, cost-efficient business website with automated lead handling and real-time client notificationsIntegrated form submissions with Google Sheets, automatic email notifications, and WhatsApp direct chat for instant lead captureEliminated server deployment costs through Google Apps Script backend, achieving zero hosting expensesImplemented SweetAlert-based UX for success/error handling and mobile-first responsive design for target audience | |
| PlanMyDay – Indian Wedding Planning Platform
<i>React.js, JavaScript, Tailwind CSS, Node.js, HTML5, CSS3</i> | October 2025 – Present |
| <ul style="list-style-type: none">Built scalable wedding planning platform with vendor listings (venues, decor, catering), budget tracking, and checklist workflows | |

- Designed and developed reusable React components with modular architecture for category-wise browsing and planning utilities
- Implemented fully responsive UI optimized for mobile users with interactive user experience and visual components
- Created structured planning tools to simplify Indian wedding management in a single integrated platform

Portfolio Website

React, Tailwind CSS, Vercel

- Created personal portfolio showcasing projects with modern design, animations, and optimized performance
- Achieved 95+ Lighthouse score across all metrics through code splitting and lazy loading

EDUCATION

Master of Computer Applications (MCA)

August 2023 – June 2025

Sage University

Indore, India

CERTIFICATIONS

Responsive Web Design | C & C++ OOP Completion Certificate
